Memo

The objects intended to serve by the local cess are briefly described as (1) Construction and repair of roads. (2) Educational purposes and (3) Such other local objects as may be deemed necessary. (Please see Chief Comrs etc $\frac{5.5.75.}{252R}$ dt 4/2/71 Several etc q in file about Local Cess).

(2) The Chief Comrs observed in his letter dated 13th June 1871 etc $\frac{1321}{47R}$ that should his proposals be sanctioned by H E the Governor in Council, the proceeds of the cess on the Sayer collections or on ~~Rates~~ Abkary and Salt, the income would provide the

means of supplementing
where necessary the
local revenues of such
Talukas on account of
meeting the cost of other much
required local works of a
general character such as
the establishment of Industrial
Model Farms, which are very
urgently needed in connection
with the efforts that are
being made for the improvement
of agriculture throughout
the Province.

(3) Para 4 of Pro dated
22 January 1877 lays down
that sums credited to the
head of "Local Funds General"
are held available to meet
Special

special grants-in-aid time to time for local purposes under the authority of the Chief Commissioner.

(4) In Pro dated 4th March 1891 c/o ~~6591-600~~ / L451 13680-9 / 288L375 it was observed that Govt would be glad to make a grant-in-aid of Rs 10,000 to each of the Districts for any works of public utility such as drinking water wells, construction of village chavadies, bathing ghauts, bridges over nallas &c Sums were sanctioned for Village Chavadies, Mantaps Musafirkhanas &c to the several Districts in Pro dated 10/9/91 c/o 6591-600/L451 for 1891 92. In the following years also sum grants were made for such works

(5) As funds were allotted
in previous years for Mess afsokhana,
as stated above, from L. F. El,
it is submitted that that the
fund may be utilized on the construction of a

Sir,

There is a hill in the Gundalpet Talukcalled Himavat Gopalaswamy betta alias Southern Govardana. Very many persons go there every nowand then from all parts of India (many miles distant) on account of the temple of Gopalaswamy that is on it; but there is no place there to halt. Therefore, at the instance of Mr. Melichatty Devappa, a member of the Representative Assembly, the Amildar of Gundalpet proposed at the meeting of the District Fund Board held on the 15th April 1896 that a Musaferkana should be built there. Sir,

I have the honor to acknowledge receipt of Government Proceedings No. 13317-8 / L.F 146-95 dated 10th June 1896, regarding the Mysore District Fund Board's proposal to construct a Musafarkhana on the Himavat-Gopalaswamii Hill in Gundlepet Taluk and enquiring if a contribution may be made from Mysore Funds for the purpose.

2. In reply, I have the honor to state that I have myself once visited the Hill in 1893. It is true, that as observed by the Deputy Commissioner

in his letter to Government No. 1391 dated 28th May 1896, the Temple on the Hill is resorted to by pilgrims from all parts of India; and I have also noted, during my visit, that the residents of the surrounding localities frequently go and stay on the Hill because of the very healthy water procurable there. A Musafarkhana on the Hill, large enough to accommodate about 20 travellers at a time, is indeed a much needed want.

3. As regards the proposal to make a contribution from Muzrai funds towards the construction of the Musafarkhana on the Hill, I beg to state that the only Muzrai institution on the Hill, viz, the Sri Avinavat-Gopala-Swami Temple, has no savings at its credit. The Temple itself was lately found to stand in great need of repairs, and to put the Temple in order Rs 4363- have been already sanctioned from

other Municipal Funds. Any further outlay towards the construction of a Musafarkhana at the same place, cannot but be felt as a heavy strain on the resources of other Municipal Institutions. I would therefore beg to suggest that, considering the great utility of the proposed Musafarkhana on the Hill for pilgrims and other travellers, the cost of its construction be met partly from District Funds and partly from Local Funds 'General'.

4. In this connection, I beg to bring to the notice of Government that a road leading from Gundlepet to the Himavat Gopalaswami Hill was opened on the occasion of His Highness the late Maharaja's visit to the Hill in 1893. This road, I understand, is not now in a good condition. As the road will be very useful to the large number of pilgrims going up the Hill, I beg to request that the Deputy Commissioner may be instructed to have the road

repaired from time to time and kept
in good order.

& prepared at my request by the
t. Executive Engineer of the Mysore Division.

2. It will be observed from the Executive Engineer's Docket-No. $\frac{3078}{903}$ dated 24th September 1896, under cover of which the estimate was received and which is also herewith forwarded in original for reference, that the proposed plan is, with very slight modifications, a copy of the standard plan of the 4th class Musafarkhanas. Though, owing to the impossibility of obtaining any kind of materials except stone on the hills and the necessity of procuring even ordinary labor from down the hills, the rates provided for the different items of work are double those prevailing elsewhere, yet, as remarked by the Executive Engineer, it is still doubtful if the total cost of the proposed Musafarkhana

can be brought within the allotted amount of Rs 5000.

3. But however, considering the great importance of the place and the urgent necessity of providing a tolerably suitable accommodation for the multitudes of pilgrims and travellers resorting thereto, I beg to request that the Government be pleased to accord sanction to the estimate now submitted, so that the work might commence forthwith. Any additional amount that might be found to be absolutely needful for the completion of the work, may be sanctioned later on, on submission of a supplemental estimate therefor

24th Sept 96, under cover
of which the estimate was
received and which is
also herewith forwarded
in original for reference
that the proposed plan is
with very slight modifications,
a copy of the standard
plan of the 4th class
Ellusafar Khana. Though,
owing to the impossibility
of obtaining any kind of
materials except stone on
the hills and the necessity
of procuring even ordinary
labor from down the hills,
the rates provided for the
different items of work
are double those prevailing
elsewhere, yet, as remarked
by the Executive Engineer,
it is doubtful if the total
cost of the proposed
Ellusafar Khana can be
brought within the alloted
amount of Rs 5,000.

But however, considering
the great importance

of

of the place and the ~~urgent~~ urgent necessity of providing a tolerably ~~suita~~ suitable accomodation for the multitudes of pilgrims and ~~visitors~~ travellers resorting ~~th~~ thereto, I beg to request that the Govt be pleased to accord sanction to the Estimate now submitted, so that the work might commence forthwith. Any additional amount that might ~~afterwards~~ be found to be absolutely needful for the completion of the work, may be sanctioned later on, on submission of a supplemental Estimate therefor.

I have the honor &c.

for the works.

Referring to the above, I have the honor to forward herewith a plan and estimate amounting to Rs 4,760 for the work in question, and to state that the plan proposed is a copy with a very slight modification of the standard plan of the 4th class Musaferkhanas.

2. The rates allowed in the estimate are double of those obtaining in Gundlepet, and yet undersigned does not feel quite certain that they will suffice. The fact is that no material of any kind except stone is procurable on the hill, and even ordinary labor will have to go up from the foot of the hill

of Gundlupet Taluk reports that the Contractor Ramalingiah who undertook the work of Constructing the Musaferkhana has not yet begun the work. The file of correspondence, in which is included the Muchalika executed by the Contractor, has been called for from the Taluk. It will be ascertained by a reference thereto whether the Contractor has not acted up to the terms therein laid down, and whether he has not thereby become liable to pay penalty for default, and a report submitted for orders of Government.

It has also to be added that no other Contractor can be found here who is willing to go and execute the work there, should the present Contractor be found a defaulter

Note

Correspondence ending with letter no 163, dated 27th June 1900, from the Deputy Commissioner, Mysore District, regarding the construction of a Musafirkhana on the Kunavat Gopálaswami Hill, in Gundlupet Taluk.

On the recommendation of the District Board, which was supported by the Muzrai Superintendent, the Government in their Proceedings no. 1437-9 L 7. 146-95 dated 28th July 1896 issued in the Local Fund Branch, were pleased to sanction the construction of a Musafir Khana on the Kunavat Gopalaswami Hill at a cost not exceeding Rs 5,000/- which sum was placed

placed at the disposal of the Mwzrai Department out of the Local Funds General; and in a subsequent Order no 5964-6 & 7 146-95 dated 24th November 1896, issued also in the Local Fund Branch, a regular Estimate for the work amounting to Rs 4760/- was sanctioned by Government.

Owing, however, to the difficulties of procuring labor &c on the top of the Hill, the work did not make any progress, though a special maistry was also employed for some time to have the work done in amáni. The Deputy Commissioner now reports that the Estimate for Rs 4760/-, sanctioned by Government requires revision; and accordingly submits for sanction a revised Estimate amounting to Rs 9311/- which he got prepared by the Executive Engineer of Cuttack Division; the Deputy Commissioner further

The Comptroller in a Docket to this Office No 502, dated 4th September 1896, reports that the amount has been already debited to Local Funds General and credited to Mwzrai Funds

further reports that he has secured two Contractors who have undertaken the work and have even collected materials therefor, such as stone slabs for beams, pillars &c to the value of Rs 800-13-0, which sum, he says, has been paid to them out of the grant already sanctioned for the work

The amount of the original Estimate for this work has been sanctioned from Local Funds General, in consideration of the great public utility of the Musafirkhana; the additional outlay of Rs 455/- that is — required according to the revised Estimate now submitted by the Deputy Commissioner has also to be assigned out of the same Funds.

The late Maharaj had set his heart upon this. I will it ought to be completed - The revised estimate may be examined & if approved this additl sum required may be sanctioned from L. Fds General

Note Continued.

As directed in the Dewan's order of the 19th October 1900, the Estimate received from the Deputy Commissioner, was referred to the Chief Engineer for opinion; in reply, the Chief Engineer stated[x] that it was not advisable to adopt brick-in-mortar and plastering for the parapets as provided for in the above Estimate and suggested that in such an exposed situation it would be better to adopt "Stone" throughout the building, even if the cost be somewhat greater. on this, the Chief Engineer was asked[x] to favor the Government with a revised Estimate providing for Stone-in-Mortar work

throughout as proposed by him. He has accordingly forwarded a revised Estimate amounting to Rs 10,364-

The sum of Rs 5000- sanctioned out of Local Funds General in Government Proceedings no $\frac{1437-9}{L.7146-95}$ dated 28th July 1896, is now available for this work, the amount having been already drawn and credited to Mutrai Surplus Funds. An additional allotment of Rs 5364- is now required and it is requested that this allotment may be sanctioned out of Local Funds General as proposed in the Mutrai Superintendent's note above.

Comptroller's Docket no 502 dy 4th September 1896.

As regards the execution of the work, it is suggested that it may be entrusted

to P.W. Department
the Estimate now received
from the Chief Engineer
provides also for the
Establishment charges
at 10% usually allowed
to that Department in
such cases. Considering
the difficulties of the work
on the hill, it is doubtful
if the Amildar will be
able to have it executed
in Amáni under proper
supervision.

Sir

With reference to your Rookkam No 3801 dated 24th November 1897 forwarding an Estimate amounting to Rs 4760-0- for the Construction of a Musafer Khana on the Hemavad Gopala Swamy hill in the Gundlupet Taluk I have the honor to State that the work could

Could not be put in hand till about the middle of September 1899 as proper Contractors were not available Two headers viz Thumma Bhoya and Hamma Bhoya, who took up the work on Contract in September last, have Collected materials, such as Stone Slabs for beams and pillars, worth Rs 800-13-0, which Sum has been paid to them out of the amount already Sanctioned.

2 The original estimate provided for walls of brick-in-mud. The Soil on the hill-top is said to be utterly unsuited for manufacturing bricks or even for laying up bricks, having hardly any

of Sand or clay mixt to prepar
beechs below the hill and Conne
them to the Site of building on
the top would entail heavy Cost
The Auuldar, with a view to ove
Come these difficulties has Sug
gested the erection of walls of
Stone in chunam utilizing the
Stones of old useless fort walls
on the hill The rates allowed
in the Sanctioned estimate for
burnt. Stone work and for Ston
beams are Complained of as
being very low Since there are
quarries on the hill which woul
admit of being worked for a
Sufficient Supply of burnt Sto
and So rough unburnt Stone

have to be directed and utilized for all purposes.

3 The Amildar has accordingly submitted a revised estimate for Rs 7940-0-0 which is in excess of the amount sanctioned by Rs 3180-0-0 The Executive Engineer whose opinion was sought for agrees with the Amildar in regard to the substitution of stone in chunam walls for brick in mud walls

Consideration of the unsuitability of the soil for the manufacture of bricks, and has sent a fresh plan of the building and a fresh estimate for Rs 9311-0-0 his estimate exceeds the original estimate by Rs 4571-

Considering the Situation and the Exposure to which the building would be subjected I would prefer its adoption and I accordingly solicit the Sanction of Government to the Same

Has the honor to return the File of papers forwarded with Chief Engineer's No: 5090 dated 26-10-1900, and to state that, in the Superintending Engineer's opinion, the rates allowed by the Executive Engineer cannot be considered exorbitant, Considering the difficulties involved in obtaining the materials required It would not

not be advisable to adopt brick in mortar and plastering for the parapets &c, as proposed by the Executive Engineer. In such an exposed situation it would be better to adopt stone throughout the building, even if the cost is somewhat greater.

His memo No. 5288 dated 5th Inst, forwarding copy of Docket No. 4159 dated 31st October 1900 from the Superintending Engineer, Western Circle, in re the revised estimate for Rs 9311 for constructing a Musafarkhana on the Himavat Gopalaswami Hill in Gundlupet Taluk

---

In his communication referred to in the above the Superintending Engineer observes that it would not be advisable to adopt brick in mortar for the

parapets &c and that it
would be better to adopt
stones throughout the
building even if the cost
be somewhat greater. This
opinion is also concurred
in by the Chief Engineer.
But it is not understood
what the cost would be
if stone be used throughout
as proposed by the Superintg
Engineer. It is therefore
requested that a fresh
Estimate providing for
stones instead of brick in
mortar for the entire
building may be prepared
and forwarded for the orders
of Govt at an early date.

Order thereon. No. 1500 7-9
L.F. 146-95

Dated Bangalore 10th May 1901

In Proceedings No. 1437-9 dy
L.F. 146-95

28th July 1896, the Government sanctioned the construction of a Musafirkhana on the Hinavat Gopalaswami Hill at a cost ~~of Rs~~ not exceeding Rs 5000/- which sum

was

placed at the disposal of the Murree Deputy out of Local Funds General and in a subsequent order no 5964-6 D/ 24 Nov 1896 L7 146-95 an Estimate amounting to Rs 4760/- for the work was sanctioned

2 From the correspondence read above it is observed that owing to the difficulties of procuring labor on the top of the hill, the work has not made any progress, though a special Mistry was also employed for some time to have the work done in Amani. The Deputy Commr reports that the Estimate sanctioned in the Govt order of the 24 Nov 1896, which provides for brick-work requires revision as the soil on the top of the hill is utterly unsuited for the manufacture or even laying of bricks and accordingly submits for sanction a revised Estimate amounting to Rs 9316/- providing therein for walls of Stone-in chunam for the major portion of the Building

3. The Chief Engineer to whom the Deputy Commrs proposal was referred for opinion, states that in such an exposed place

like the hill top. It is better to adopt stone throughout and he has in compliance with a requisition from this Office, prepared a revised Estimate amounting to Rs 10,364/- so as to provide for stone-in-mortar work throughout the building.

4- The Estimate amounting to Rs 10364/- as finally revised by the Chief Engineer is sanctioned & returned to that Officer with a request to have the work executed under proper supervision of the P.W Deptt.

5. As regards the cost of the work, it is observed from the records that the sum of Rs 5000/- originally sanctioned for the work out of Local Fund General has been already credited to Municipal Surplus Fund and is now available for expenditure. The additional sum of Rs 5364 required to meet the cost of the revised Estimate above sanctioned will now be granted also from Local Fund General and

Correspondence regarding the Construction of a Musafarkhana on the Hiravatgopalaswamy Hill in the Gundlupet Taluk.

From the above, it is observed that a sum not exceeding Rs 5000 was sanctioned from Local Fund Grant for Construction the Musafarkhana referred to above in Govt. Rso. No. 1437-2F 1146-dated 28th July 1896 and placed at the disposal of the Muzrai Supdt, that the Muzrai Supdt afterwards submitted a plan and Estimate

amounting to Rs 4760 which was sanctioned in
No 5964-6 dated 24th November 1896 and that it
F. 1467-95
was ordered to be carried out by the Muzrai
It is further seen from the Deputy Commissioner's letter
dated 27th June 1900 that out of the sanctioned
of Rs 4760, a sum of Rs 800-13-0 was paid to two
Contractors for collecting materials, that Rs 45 was
to Maisuru Ramiah who was appointed
the work from December 1897 to February 1898 at
rate of Rs 15 per mensem as per Pub Kari No 801
12th November 1897, and that a bill amounting to Rs
was sanctioned in Govt Pro: 205-6 dated 16th
Muzrai F. 23-96
being the pay due to one Padmanabhiah, a Maistry of
to look after the work from 10th November 1899 to 23rd
1900 and thus there remains Rs 3878-4-11 available in the
~~Treasury~~ District Treasury, Mysore at the Credit of the Muzrai
Superintendent.

The Deputy Commissioner is now therefore requested
to verify together the above items of expenditure, to report what
has become of the materials costing Rs 800-13-0 collected by
the Contractors noted above, whether used by the P. W. Department
who have now been executing the above work or is available for
their use ~~and to report whether he can forward the same to the place~~

dated 28th July 1896,

Sanctioning the erection of a Musafarkhana on the Hiravad Gopala Swami Hill in the Gundlepet Taluk, at a cost not exceeding Rs 5000/- the cost being defrayed from Local Funds General; and directing the Comptr to place the said sum at the disposal of the Muzrai Departt.

ii) Govt: Pro: No. 15007-9
L. D. 146-95

Subd to the Dewan

This order has been issued from the General Dept.

An estimate for a total sum of Rs 10364 was sanctioned for the construction of a Musafarkhana on the Hiravad Gopalaswamy Hill. The Chief Engineer however wanted only Rs 9804. Upto the 18th Sept 1903, work to the extent of Rs 3585 had been done and in the necessary book the Comptroller was asked to place at the Chief Engr's disposal a sum of Rs 4440 to make up with Rs 5364 already sanctioned the revised estimate of Rs 9804.

Out of the amount of Rs 5364, a sum an unspent sum of Rs 1779-7-2 was written back at the end of June last. This amount also has now to be given back.

As per new financial rule, the Comptroller (now keeps Rs 4440 & Rs 1779-7-2) may that both these amounts be ordered to be received in the D.P.W. Recd.
